Unique and Innovative Term Calendars

Each year is divided into four 13-week terms.

Our 13-week terms feature a progressive structure designed for optimal learning and study-life balance. Students begin Session 1 with four weeks of classes, flowing directly into Session 2 with another four-week block, maintaining momentum and continuity. Session 3 concludes with two focused weeks of classes, followed by a generous three-week end-of-term break.

This format offers several important advantages:

Continuous learning in Sessions 1 and 2 helps build strong foundations.

Our shorter final session reduces end-of-term fatigue and burnout.

The three-week break allows time for:

Complete rest and recovery

Exploration of Southern California and other parts of the United States

Short visits home if desired

Teaching Methodology

Our teaching approach focuses on interactive and immersive learning. Small class sizes ensure personalized attention, while our experienced teachers use the latest technology to make learning fun and engaging.
